DAVID HERBRUCK
Promax Awards Committee Chair
Principal & President, loyalkaspar

Dear Promax members,

Keeping up with the shift from linear to digital in this new multi-platform ecosystem is no small task. Every year, it is imperative that we audit and update the awards categories to keep them relevant and consistent with our evolving industry. I want to thank the commitment of the Awards Committee, as well as Stacy La Cotera, Paul K. Lee and the entire Promax Awards team for making it all happen.

Thank you to our judges for the hours of focused diligence that went into determining the top finalists. We are also grateful to our jury, who worked tirelessly to select the award-winning work. Jurors were chosen for their commitment to the craft, passion for creativity, and dedication to our community. And for the first time, we had a Global Excellence jury comprised of professionals from around the globe.

This organization has always held a very special place in my heart. I have been a member for a very long time and many of the relationships that I value most, both personally and professionally, have been cultivated and enhanced through this community. It has been my extreme pleasure to serve on the Promax Board of Directors for the past four years and an honor to be selected as the Awards Committee Chair.

While serving on various committees, I have been inspired by the collaboration of passionate people who share a love for Promax. As a nonprofit, the work is not always easy! The Board and staff rely on the support and expertise of its members to help guide and shape the association, so I urge each and every one of you to get involved!

On a final note, I'd like to congratulate all of tonight's finalists and winners. Being recognized by your peers is a tremendous honor. After all, these are the people you have been collaborating and competing with for jobs and ratings. If you are one of the lucky few to take home an award, all the long nights and hard work have paid off.

Well deserved!

Sincerely,

David Herbruck

Discover Westworld
 Pre-premiere, DiscoverWestworld.com was fully taken over by the hosts, leaving Aiden, the site's formerly friendly concierge host nowhere to be found. The site continued to evolve, featuring glitchy takeovers, map changes to track the characters, and the subtle presence of Delos looming. Before Season 2 ever premiered, the site teased what was to come at Westworld, and how the hosts felt about their "new world."

Powered by Machine Learning

Optimize your content across platforms.

TiVo knows promos. We can help you optimize your catalog with sophisticated metadata solutions, TV viewership data for planning efficiency, and personalized search and recommendations for easier entertainment discovery.

Personalized Content Discovery Platform

Drive relevance and revenue.

- Help viewers find your content, when they want it.
- Enhance the experience with voice search and tailored recommendations.
- Fine-tune your strategy with integrated analytics and reporting.

Entertainment Metadata

Maximize value across platforms.

- Make your catalog more discoverable with comprehensive, standardized metadata.
- Add synopses, descriptors, awards data, cast and crew details, franchise information and imagery, plus translations in up to 16 languages.
- Tap into trends with the power of our entertainment graph.
